

About Me - Afshin Mohammed

Afshin Mohammed is an ocean lover who turned passion into purpose. What started as a career in business development eventually gave way to something far more meaningful: the call of the sea. He made the bold decision to follow that call and became a professional scuba diving instructor, dedicating his life to exploring and sharing the underwater world. Over the years, he has certified hundreds of divers across Southeast Asia and the Middle East, guiding people of all backgrounds into a world many have never experienced before. For him, diving is more than just a skill—it is a way to connect, to learn, and to truly disconnect from the noise of everyday life. He is deeply passionate about marine life and coral ecosystems, and takes pride in not just teaching diving, but also inspiring awareness and respect for the ocean. Every dive is an opportunity to witness something extraordinary, and he believes everyone deserves to experience that feeling. Whether it is a first-time dive, a certification course, or a private boat trip to the stunning Daymaniyat Islands, his goal is simple: to create unforgettable moments and help people discover a deeper connection with the ocean. Because for him, there is no place more peaceful, more powerful, and more unifying than the sea. Dive in—and experience it for yourself.
